PROFILE

Hello, myself Antara Ghosh. Currently, I am pursuing B.tech degree in Information Technology from B. P. Poddar Institute of Management and Technology. I am a front-end web developer and, I'm very familiar with using frameworks. My websites are primarily hand-coded using HTML, CSS, Bootstrap & JavaScript. I look for creative ways to push the boundaries of website front-end code without compromising browser support. I am a positive person who loves to connect with people.
